I believe Michelle put together a list for the HRS package- I am forwarding to her to see if we have a spreadsheet already. Is there a specific time-frame you are looking at- Just those wells that we have sampled during the Phase 1, Phase 2 and Removal Assessment- (ie, 2012 to now)- or further back in time- and do you want to include the wells in and around homestake?

Michelle, I know we had the original list from John Rinehart and we verified that list -for the package- do we have a readily availbale fact sheet.

I will put a list together for SMC Basin GW study. I can add some of the Removal wells, but they would need to be verified by Warren or Bill.

I think we have had a lot of numbers thrown around – how many private wells have been sampled?

Thanks
